CSS	GitHub	Communication
Javascript	Tailwind Css	Teamwork
Typecript	Figma	Creativity
React Js		
Next JS		

Work Experience

IT Specialist at Federal College of Education Benin…… 2026 - present

Featured Projects

Chartlyx Typescript First React Charting Library

Developed a lightweight composable charting library using React, Typescript, D3 modules, and SVG. Implemented reusable visualization.

Components for line, bar, area, scatter, pie and radar charts with a focus on type safety, modularity, and developer experience. Configured package tooling for distribution and integration into React application.

Apex School Management System

Built a school management platform with role based authentication for administrators, teachers and student.

Developed features for student record management and automate result collation, using Next.Js, Supabase, and Tailwind Css to deliver a structured, responsive application experience.

Rubiek Interactive 3D Rubik’s Cube Trainer

Developed a browser based 3D Rubik’s cube trainer using React, Typescript. And Three.Js. Implemented interactive cube manipulation through keyboard shortcut, an on-screen control pad, standard cube notation, combining real time 3D rendering with an interactive interface.
